

**Venice Masterwort**  
*Astrantia major 'Venice'*

Plant Height: 18 inches  
Flower Height: 24 inches  
Spread: 24 inches  
Spacing: 18 inches  
Sunlight: ☉ ●

Hardiness Zone: 3a

Other Names: Hattie's Pincushion

**Description:**

Beautiful deep red pincushion flowers on dark stems; great on streambanks or in a moist border, doesn't like to dry out; cut back after flowering for a second flush

**Ornamental Features**

Venice Masterwort features airy cymes of red pincushion flowers with dark red bracts rising above the foliage from early to late summer. The flowers are excellent for cutting. Its crinkled ferny pinnately compound leaves remain dark green in color throughout the season. The fruit is not ornamentally significant.

**Landscape Attributes**

Venice Masterwort is an open herbaceous perennial with an upright spreading habit of growth. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This plant will require occasional maintenance and upkeep, and should be cut back in late fall in preparation for winter. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Self-Seeding

Venice Masterwort is recommended for the following landscape applications;

- Mass Planting
- General Garden Use
- Bog Gardens

### **Planting & Growing**

Venice Masterwort will grow to be about 18 inches tall at maturity extending to 24 inches tall with the flowers, with a spread of 24 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 18 inches apart. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 15 years.

This plant does best in full sun to partial shade. It is quite adaptable, preferring to grow in average to wet conditions, and will even tolerate some standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This is a selected variety of a species not originally from North America. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.
